

Meet Seriena Miranda

Seriena Miranda

Manager, Health & Welfare Service Team

About Me

Seriena joined Sentinel in December 2024, previously working in an account management and supervisor role at Health Equity. Her main job responsibilities include: forming strong relationships with clients, resolving client issues, and educating companies and their employees on the benefits of pre-tax accounts. Seriena enjoys meeting new clients and learning about their industry.

Outside of her career at Sentinel, Seriena is involved in Total Mothering Chronicles. Total Mothering Chronicles is a small business that works with Health Start of Phoenix and assists expecting and postpartum mothers with resources, meals, and community events.

Out of the Office

While out of the office, Seriena likes to spend time with her family. She loves reading, puzzles, and a good movie. Her grandmother played a large part in raising her. Being a major influence in her life, Seriena shares a Maya Angelou quote repeated by her grandmother, *"Do the best you can until you know better. Then when you know better, do better."*
